Project Design Phase-I Solution Architecture

Date	19 September 2023
Team ID	NM2023TMID06870
Project Name	Project -GlobeTrek Insights: Navigating Global Country Data with IBM Cognos
Maximum Marks	4 Marks

Solution Architecture:

Solution architecture is a complex process – with many sub-processes – that bridges the gap between business problems and technology solutions. Its goals are to:

- Find the best techs solution to solve existing business problems.

- Describe the structure, characteristics, behaviour, and other aspects of the software to project stakeholders.

- Define features, development phases, and solution requirements.

- Provide specifications according to which the solution is defined, managed, and delivered.

## Example - Solution Architecture Diagram:
